Clair Davies asked whether we should be made aware of any new initiatives coming at us from the RDN. The audience was advised that Bob Rogers would speak to these issues.

Clair gave recognition to the board for keeping the organization going, even though there are no burning issues at this time.

**Reports**

**Treasurers Report** Lewis Vermeulen

Neil Watson has been the treasurer, but he was not available. We also do not have the exact bank balance at the Coast Capital Credit Union as the documents are still in storage due to the fire at Neil's house.

It is estimated that the balance is about \$5000.

Lewis stated that the organization wants to keep this amount on hold for the case that the organization may need funds in the future, such as for legal advice, etc.

In former years the organization had levied a membership fee. This was discontinued a few years ago due to the dwindling interest for membership from the community, as well as the change from mailed circulation to posting on the website, etc.

Moved by Frank van Eynde and seconded by Clair Davies to approve.  
Motion carried.

## **Water Report**                      John Hardman

John discussed the ongoing development regarding the Englishman River Water project. The project is mandated by VIHA to be completed by 2016. Work is already in progress even though full funding has not yet been approved.

The proposed former \$50 MM project has been brought down to \$28 MM. Nanoose will not require a plebiscite and the Parksville plebiscite is scheduled for November 21.
